REPUBLICAN NATIONAL LEAGUE.

It Will Be a Great Affair.—The Programme for the Three Days—Grand Parade of Marching Clubs—Railroad Transportation—Explanation of the Arrangements.—The Republican clubs of Buffalo, N. Y., have issued circulars addressed to all the Republican League clubs of the United States detailing the arrangements and programme for the National League convention to be held in that city September 15, 16, and 17.

The convention will meet in Music Hall, Buffalo, at 10 o'clock on the 15th instant and will be composed of 1010 delegates.

The programme of the convention will be practically as follows: Wednesday, September 14, 3 p. m.—Conference of national league and state league officers.

Thursday, September 14, 8:30 p. m.—Business meeting of national league executive committee.

Thursday, September 15, 10 a. m.—Convention called to order.

Address of welcome, and address of President Harrison.

Appointment of committees.

Thursday, September 15, 2 to 6 p. m.—General business, and five minute reports of league work by states, and five minute speeches on the general good of order.

Thursday, September 15, 7:30 p. m.—A league mass meeting will be held in the great Music Hall of Buffalo. This will be under the auspices of the National League, assisted by the Republican clubs of Buffalo. The following speakers have accepted invitations for this occasion: Hon. William McKinley, Jr., Hon. J. Sloat Fassett, Hon. E. O. Wolcott, Hon. John M. Thurston, Hon. J. P. Dooliver, Hon. Charles S. Morris, Ohio's prominent speakers, whose names we are not at liberty to announce definitely, will also address one or more meetings as may be determined.

Friday, September 16, 10 a. m.—Business session. Reports of committees. Election of officers and standing committees.

At 10 o'clock a. m., on Friday, in another hall, will be held a women's Republican mass meeting, under the auspices of the Women's Republican Association of the United States, Mrs. J. Ellen Foster, president, presiding.

There was inaugurated last May at Ann Arbor, Mich., a movement of great significance to the Republican party. Representatives from various colleges in the United States met there and organized the American Republican College League, as the college branch of the National Republican League. This organization has national headquarters at 201 Fifth avenue, New York city, where the work of organizing Republican clubs in all the colleges and universities in the United States is progressing.

As a fitting recognition of this very important work, the national league has invited the college men of the country to attend the convention at Buffalo, and a special session from 2 to 5 p. m. on Friday will be devoted to their special work.

Friday evening will be devoted to a grand parade of the league clubs of Buffalo and visiting clubs from other sections of the country. If official duties do not call them elsewhere, it is more than probable that the parade will be reviewed by Hon. Benjamin Harrison and Hon. Whitelaw Reid.

As a recognition of the league campaign marching clubs prizes have been offered for the most and best drilled league clubs at the convention.

TRANSPORTATION.

Nearly all of the traffic associations have granted reduced fares on the railroads. The rate will be full fare going to Buffalo, and one-third fare returning, upon the certificate plan. Some roads may grant one fare for the round trip.

Railroad tickets will be sold on the certificate plan, as in use on most of the railroads. The passenger pays full fare in going to the meeting, and secures a certificate (or receipt) therefor from the ticket agent, by request, at the time of purchase, and this certificate (or receipt), when countersigned by the proper official at the meeting, becomes authority for sale of a return ticket over the same road, between same points, at one-third fare, thus making one fare and a third for the round trip. Where the journey is made over more than one line, it is frequently necessary for the passenger to purchase a separate local ticket, and procure certificate thereof for each of the lines over which he travels in going to the meeting, as many of these lines do not honor the certificate of any other line. Passengers should therefore ascertain from the ticket agent what portion of their journey can be covered by the certificate procurable of him, and purchase tickets and secure certificates filled in accordingly.

Failure to procure or present certificate invalidates any claim for reduction in return fare.

The tickets purchased for going passage may be either unlimited or limited, according to rate paid or regulations in effect on the line over which it reads; but the return tickets sold at the reduced fare will, in all cases, be limited to continuous passage.

Certificates will not be honored for return tickets at reduced rates unless presented within three days after the adjournment of the meeting (Sunday) not being accounted a day), nor will certificates be honored in cases where going tickets were purchased more than three days prior to the commencement of the meeting.

Be sure that you get a special certificate from the local agent from whom you purchase your ticket to Buffalo. This certificate must be produced at Buffalo and signed by A. B. Humphrey, secretary of the National League, to entitle the holder to the return rate of one-third the regular fare over such roads as grant it.

The National League secretary or his assistant will be found at league headquarters in the Iroquois Hotel, at Buffalo.

There are eighteen hotels in Buffalo offering special rates of from \$1.50 per day to \$4 and upward.

Irreparable Loss.

Old Mose Perdu was one of those periodical drunks who can remain sober for months at a time, then go on a tremendous spree, stay drunk a week, sober up, and be an exemplary citizen again for months.

A neighbor told old Mose's wife of a new preparation that could be used unknown to him and would effectually kill his appetite for liquor.

She procured it and used it according to directions.

One day, after a period of sobriety extending over nearly six months, old Mose went to town and got a jug of whiskey.

He didn't taste right. It made him sick. He put it in his wagon, climbed in, and drove home in a brown study.

He called his hired man and tried the whiskey on him.

The hired man said it was as good as he ever tasted.

That settled it. He went into the house with blood in his eye.

"Jane," he said, "you've been dosen' me."

"I have Mose," answered his wife. "I have Mose Bybold's Safe Antidote for

THE WHISKY HABIT IN YOUR COFFEE EVERY DAY FOR THE LAST FOUR MONTHS.

"Who told you I wanted to be broke of the whisky habit?"

"Never mind who told me. Has it cured you?"

"Cured me? Great Scott, yes! It's ruined me, Jane."

He went out to the wagon, brought in the jug of whisky, set it on the kitchen table, pointed at it with a trembling finger, and said brokenly: "Jane, why didn't you tell me about it when I started to town this mornin'?"

Look at that jug o' whisky, will you? There's a dollar in 'a half gone forever!"

BRAXTON REPUBLICANS

Nominate a County Ticket—Speeches by Hon. T. E. Davis and O. W. Atkinson. Special Correspondence of the Intelligencer.

Sutton, W. Va., Sept. 3.—This was a great day for the Republicans in Braxton county. They met in mass convention for the purpose of nominating a county ticket, which brought to Sutton a large number of Republicans, as well as quite a sprinkling of F. M. B. A. and Democrats.

It was also advertised that Hon. T. E. Davis and Hon. G. W. Atkinson would be here. The convention nominated the candidates heretofore nominated by the F. M. B. A., including the candidates for the house of delegates in the delegate district composed of Braxton and Clay counties. The ticket is composed of good and popular men.

After the convention was over, Hon. T. E. Davis was introduced, and in a short but effective address, he showed up the extravagant and reckless mismanagement of the state finances and expenditures of the public money in a light that made the people open their eyes and look seriously toward their tax bills as well as pocketbooks. He backed all his assertions by figures taken from the record, and compared them with the management and expenditures of the Republicans—which showed largely to the credit of the Republican party.

Mr. Davis made an exceptionally fine impression. His genial nature and familiarity with the masses is such that he makes everybody feel good, with whom he comes in contact. He made the impression that a competent business man can make.

Hon. G. W. Atkinson delivered a masterful address on the issues of the day, both state and national. He showed up the Democratic state administration in its true light and to its detriment. His speech on the tariff, was a splendid one. He dealt in facts and figures; showed up the whole history of tariff legislation from Washington down and its bearings on the prosperity of the country in the periods of high tariff, and the depression in the periods of low tariff, and by statistics proved the great prosperity of the country at the present. He showed that all articles of merchandise are cheaper now than when the McKinley law was passed, excepting the one item of "pearl buttons," and that all farm products are higher. He called upon any person present to refute it, but no Democrat was present who would say so.

He exploded Senator Faulkner's "force" bill and "Nigger" supremacy bugaboo in a way that created a great amount of merriment and applause. Mr. Atkinson's speech was listened to with marked attention throughout by Democrats as well as Republicans. There was quite a sprinkling of ladies in the audience, who seemed to enjoy the proceedings.

Both speakers were frequently and loudly applauded, and all seemed well pleased and satisfied that much good had been accomplished. The Burns-ville band furnished excellent music for the occasion.

Enthusiasm to West Virginians. Special Dispatch to the Intelligencer.

WASHINGTON, D. C., Sept. 5.—Original—William Shannon, John T. Craig, Albert Lozier, Perry McMahon, Parker Mays, Benjamin F. Sowers, Robert R. Spiker, Zachariah Feather, Calvin Miller, Ezra F. Davis, Edmund G. Reed, Thomas G. Butt.

Additional—Joseph Morris, Nathan Snodgrass, Calvin B. Martin, William E. Mick.

Increase—William Gauder, O. W. Martin, Charles Fortune, Silas Ash, Alexander Summers, Benjamin F. Robinson, Elmore O'Brien, David Baldwin, Harvey Drake.

Original Widows, &c.—Mary J. Gallagher, Eveline Dean, Lucinda Philippi, Maranda Clark, Mary F. Webb.

LIVE STOCK.

It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents a box. For sale by Logan Drug Co.

BROWN'S IRON BITTERS cures Dyspepsia, Indigestion & Debility.

Children Cry for Pitcher's Castoria.

CATARRH OF THE STOMACH.

Poor Appetite, With Violent Pains and Nausea After Eating.

A Case That is of Interest to Every One Who Suffers from Indigestion. Terrible Suffering Night and Day.

Do you eat well? If so, you enjoy one of the great blessings of life.

But how many people are there who never know what it is to enjoy a meal? The more the taste is pampered to the less the appetite manifests itself. Instead, perhaps, there is a decided revulsion, and the food that one must eat to keep the body alive is forced into an unwilling stomach, only to cause intense pain and a sickening nausea.

Why is this? Did you ever stop to consider the reason? Drs. Copeland and Davis have from time to time in these columns endeavored to point out the cause of dyspepsia or disordered digestion, and that their explanation is the correct one is evidenced by the many cures their method of treatment is producing every day.

Physiology teaches that the numerous glands of the stomach throw out during the twenty-four hours fourteen pints of gastric juice—almost two gallons—in which to digest the food we eat. In chronic catarrh of the stomach, the mucous lining of which is continuous with that of the nose and throat, the secreting glands are diseased and depraved and do not fulfill their proper functions, hence the food lies heavy in the stomach and ferments instead of being digested. Foul gases arise therefrom which distend the stomach, causing weight, flatulence, bloating and discomfort. The heart and lungs are encroached upon by the diaphragm which impedes their natural action, hence we have fluttering of palpitation, and in consequence of disturbed circulation and respiration, coldness of extremities, depression of spirits (nervousness), feeble pulse, dimness of vision, shortness of breath, hot and cold flashes, etc., etc.

Dr. W. H. Copeland and Dr. J. W. Davis, of the Copeland Medical Institute, have from time to time in these columns endeavored to point out the cause of dyspepsia or disordered digestion, and that their explanation is the correct one is evidenced by the many cures their method of treatment is producing every day.
